

OrionVersity: Redefining Allied Healthcare Education

Integrated graduation programs blend academic excellence, hands-on clinical experience, and real career outcomes.

Executive Overview

Reimagining Healthcare Education Through Internship-Driven Degrees

Here's an opportunity for forward-thinking universities to partner with **Orion Versity**, an initiative of Orion Edutech Pvt. Ltd. India's leading skill development & staffing organisation, in launching employment-oriented degree programs in the Allied Healthcare sector.

At OrionVersity, we invite academic institutions to be part of a bold initiative:

B.Sc. / B.Voc. programs that combine classroom learning with **structured clinical internships**, backed by **strong placement support**, ensuring students graduate with both knowledge and work experience.

Program Design & Curriculum

About the Programs

- **Degree Pathways:** B.Sc. / B.Voc. in Allied Healthcare fields
- **Format:** Classroom + Clinical internships (NSQF-aligned)
- **Duration:** 12–24 months of academic learning + 24 months of internship
- **Stipends:** Paid apprenticeships during internships in hospitals and diagnostic centers

Programs Offered

Program	Degree	Duration	Internship Focus
Medical Laboratory Technology (MLT)	B.Sc.	4 years	Diagnostics, lab equipment handling
Radiology & Imaging Technology	B.Sc. / B.Voc.	3-4 years	Imaging tools, radiography, digital platforms
Operation Theatre Technology	B.Sc. / B.Voc.	3-4 years	OT management, surgical preparation
Dialysis Technology	B.Sc. / B.Voc.	3-4 years	Renal care, clinical dialysis procedures
Hospital Administration	B.Sc. / B.Voc.	3-4 years	Healthcare operations, patient management
Optometry	B.Sc.	4 years	Gaining practical exp. in various eye care settings. Perform tasks like eye examination, prescribe corrective lenses and assist in the diagnosis and management of eye diseases.

All programs are developed in line with UGC norms and NSQF standards, ensuring real-world clinical exposure from Year 1.

Value Proposition & Differentiators

University Advantages

- Tap into the booming healthcare education sector with minimal CapEx
- Boost institutional outcomes, placements, and brand reputation
- Orion can set up simulation labs, VR tools, and manage clinical infrastructure
- Academic & industry collaboration via a joint governance model

Student-Centered Benefits

- **Stipend-based internships** provide income during training
- Continuous **hands-on learning** through clinical and simulated environments
- Industry-vetted curriculum ensures job readiness
- Exposure to foreign languages increases employability abroad
- Graduates are prepared for **high-demand roles** in healthcare delivery

What Sets OrionVersity Apart

- Built on Orion Edutech's **decades of training expertise**
- Immersive teaching via **VR and simulation tools**
- Strong employer connections with **100+ healthcare partners**
- Operations across **24+ Indian states**, offering pan-India reach
- Global connect for placements in **Europe, Japan, and GCC countries**

Partnership Framework & Action Plan

How the Collaboration Works

- **Academic Tie-up:** Degrees granted by the university, with Orion managing delivery
- **Infrastructure Support:** Orion to invest in labs and tools (where required)
- **Governance Structure:** Joint academic-industry oversight
- **Admissions:** Co-branded outreach to attract high-quality applicants
- **Internships & Jobs:** Delivered via Orion's national and international hospital network

Let's Build the Future of Indian Healthcare

Partner with OrionVersity to elevate your institution, empower your students, and shape India's next generation of healthcare professionals.
